TWENTY YEARS LATER ... no change..

A GKG July dividend can only spell Chappaquiddick, the political assassination of Edward M Kennedy, an unsolved murder on the books of the Commonwealth of Massachusetts. Joseph Kopechne's quote in Jane Farrell's LHJ article, VII/89, is 100% correct :

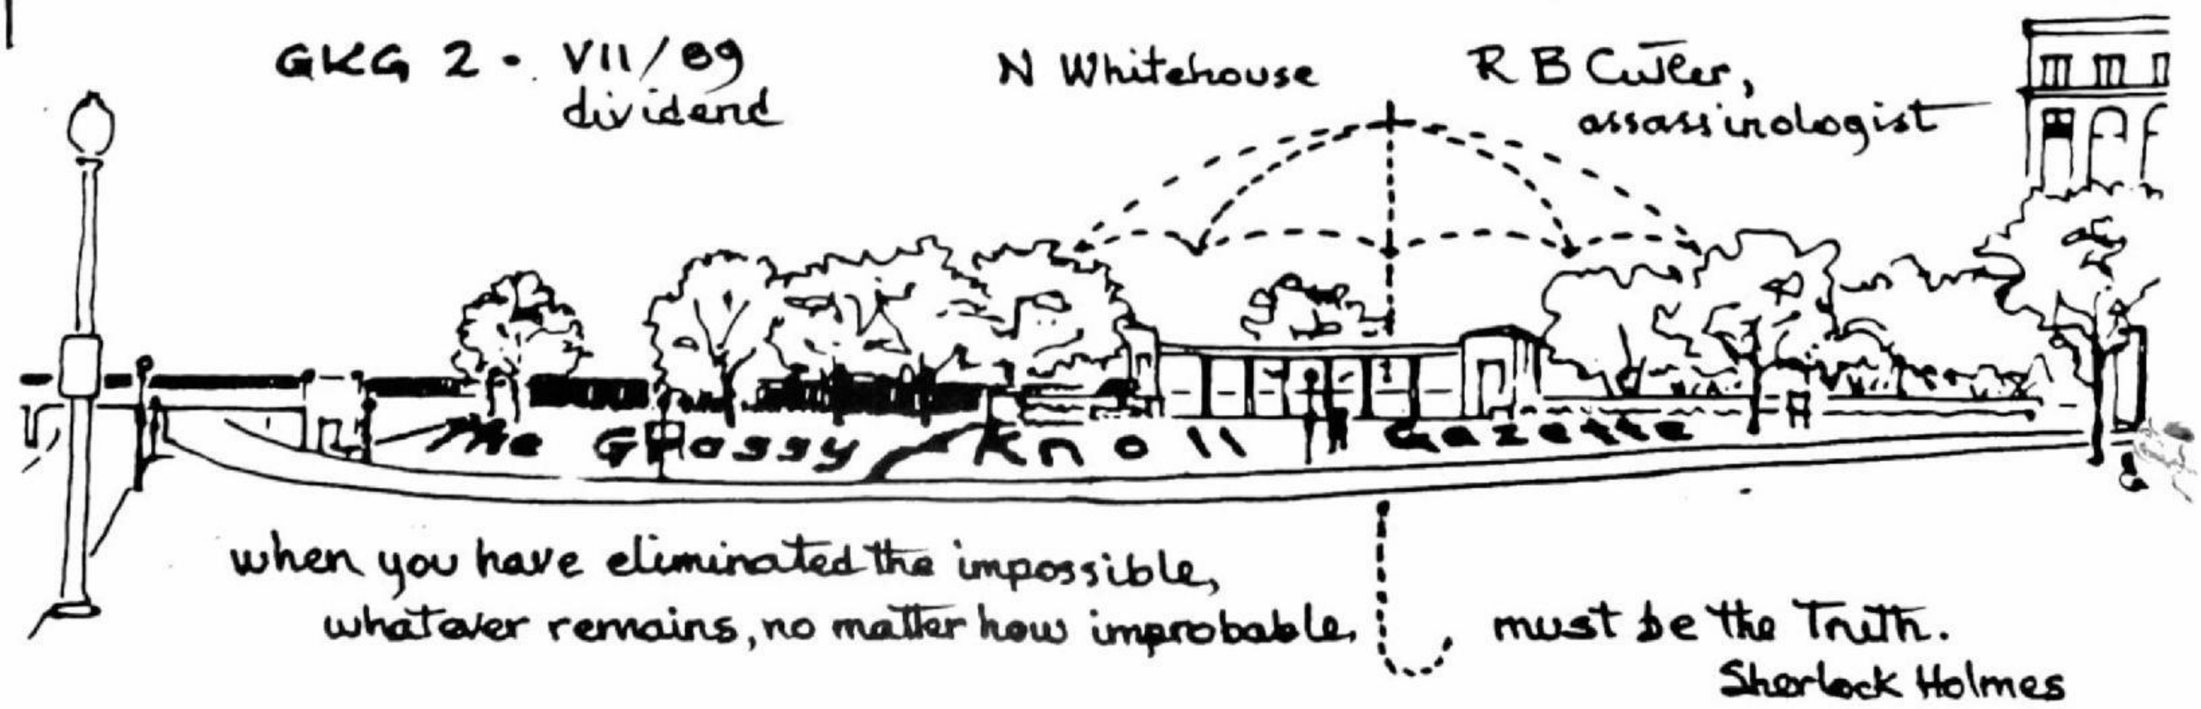
Mary Jo's death ....kept the senator from becoming president

Having elected Richard Nixon over the bodies of Martin Luther King jr and Robert F Kennedy, the Professional War Machine, PWM, was not about to allow the third brother within "shooting" distance of its NSC control of the White House. Targetting and eliminating EMK, the enemy, CREEP then re-elected Richard Nixon over MJK's body and the maimed Governor of Alabama.

Today, Bush, Quayle, Baker, Cheney, Webster, Sessions, Scowcroft and company double-live each day in heartquake lest their secrets ooze out into the public domain. Documentaries, articles and books which eshew the truth and tell how Oswald, Ray, Sirhan and Kennedy did it become best-sellers on the authors' journalistic merits.

Bush in July 1989 is to November 1992 exactly as Nixon in July 1969 was to November 1972 ...with one fortunate exception. MSG's Peace Offensive, invading every nook and cranny of this neighborhood we all call Earth, has rendered the death squads of Dallas, Memphis, Los Angeles, Chappaquiddick and the contras' freedom-fighters in Nicaragua totally obsolete .. passé. War is an anachronism; there are no foreigners. William Lloyd Garrison's "My Country, the World; My Countrymen, Mankind" rings true with every passing hour.

It remains but for glasnost to be publicly applied to the Lone-Assassin Myth even as it was applied to the Myth of Stalin. Who of the above has the fortitude Khruschev displayed ?? (cont'd)



TWENTY YEARS LATER .....

To begin to understand Chappaquiddick, time yourself wriggling out your own driver-window (open) in daylight,parked on dry,level land. Under 25.2 seconds and you qualify for the Poucha-Pondathon finals, 19 July 1989, a 20th anniversary special. You are allowed the stimulant of your choice.

Starting at midnight, every 20 minutes the Accident Committee places a finalist in its Oldsmobile on the Bridge. Two cranes upend the car into splashdown. You wriggle free, run to Cottage, jump into a Valiant provided by the Social Committee, drive to Ferrycrossing and swim to Town Dock's finish line. Best time wins a week's vacation in the Senator's room in the Shiretown Inn.

Should your wriggle-time consistently average over half a minute, meditation on being trapped upside-down, underwater after midnight may suggest postponement until you qualify for the 70-and-over handicap of 96.4 seconds.

This fol-de-rol aside, one wriggle should produce an outcry as to WHO had this accident ? WHEN ? WHERE ? HOW ? and WHY ?? This booze, blonde and beach blather is phony coverup:WHY ??

It helps to realize each book on this subject comes up with at least one clue to the truth. Leo Damore's Senatorial Privilege is no exception.

> .... at 2:45 P.M., an "urgent" message addressed to the Director was put on the teletype FBI Boston:
> On this date Dominick J Arena, Chief of Police Edgartown, Martha's Vineyard, Mass., advised body of female found in overturned car in water.
> Tentatively identified as above was secretary to former Senator Robert F Kennedy. Chief Arena confidentially states that driver of automobile was Senator Edward Kennedy who was uninjured. Stated fact Senator Kennedy was driver is not being revealed to anyone. (p 37)

It is not known who sent what information from the Vineyard to FBI Boston. It is known it arrived before 1400. The "stated fact" was revealed at that time when the Chief released the Senator's statement which, for reasons best known to him and Paul Markham who helped write it, included :

> ....I was driving my car .... I descended a hill and came upon a narrow bridge. The car went off the side of the bridge. There was one passenger with me .... When I fully realized what had happened this morning I immediately contacted the police.

That last sentence, ignored these past twenty years, is the best clue to his not driving into Poucha Pond. One wriggle and you know it's the truth.

TWENTY YEARS LATER .... a glimmer /// JAMES & the FBI

Carefully worded "urgent" gives the impression the Chief called in the information to the FBI, Boston. He laughed both at and with GKG when we suggested it. He had enough to do with the DA-Doctor autopsy-or-not, the Senator's statement admitting his guilt and sitting on that pending an okay to release it. The Chief could not remember if Bill Carpenter, the FBI resident agent, was in the press crowd with James Reston that badgered him into releasing the Kennedy statement without a go-ahead. Damore brings Carpenter into the act on Wednesday the 25th (sic, 23rd, p 165).

Be that as it may, "urgent" confirms what GKG has long considered nothing but Nixon Teddy-bashing-talk:

> ....we had a man down there within six hours and he asked all the embarassing questions .... (check our Watergate file at AARC in DC)

The timing is exquisite :

> at Ø855 Farrar surfaces with MJK's body extracted from the Olds
> at 1538, six and three quarters hours later, The Director, FBI Washington DC, knows about the underwater death of a former RFK secretary in an auto accident in Massachusetts.... WHY ? ...
> The Chief, the DA and the Registry did not need the FBI.

Turn back to GKG XII/88 and you'll find that it will be almost three years before the CIA will wrest SOG, the Seat of Government from out the Director's office and deposit it in NSC's White House Control.

Remember it was DEDGAR who spread "Oswald did it alone" half an hour after the Dallas coup d'etat and "no conspiracy" through Ramsey Clark after Martin Luther King's assassination in Memphis. Who knows what he did after murder in the Los Angeles pantry? With "urgent" standing tall and flashing, our "man down there" fades into the shadow of DEDGAR The Director's curiosity over the "accident" at the Bridge at Chappaquiddick.

meanwhile, back at the WHITE HOUSE ....

GKG VI/89 included our IV/4/89 letter to the President imagining his pardoning both Sirhan and James Earl Ray. Now, intelligence from our man in Tennessee has it on VI/5/89 an FBI and a Secret Service agent visited James at Brushy Mountain ...having first approached his attorney in AZ ....the agents were receptive to James' story about Raoul and other matters ...a trial would wash too much linen. (Face-saving needs that ole soft-shoe ...no more Waltz Me Around Again Jimmy)

It is possible Oltmoor's June filming in Memphis for a BBC documentary on MLK was the straw that broke the FBI/SS back. GKG leans toward KGB, the Kind, Gentle Bush administration's reading of our diagram, captioned with James' words p 76-7, Tennessee Waltz, from box 129, Cowan, TN, 37318 ($25 is a bargain for this documentary) James was a country quarter-mile from that bathroom window when MLK was murdered.

Who Killed MLK ??? ...as Rush always said, WE'RE GAINING (emph added)
